SEPA Environmental Event Report

Action Description

Out of hours e-mail sent to EPI team inbox. Reports of a smell so foul that had to close all windows.

SEPA Officer contacted 2 Sisters first thing the following morning to report the complaint and ask for a full investigation into what activities were specifically being undertaken at this time. and both on leave. Contacted in absence.

confirmed on 08/08/19 that their Sodium Hypochlorite scrubber (odour abatement) had depleted on Monday 5th August and required replacing. They are currently waiting on delivery of the chemical and will confirm as soon as it is fully operational again, expected to be imminent.

contacted to discuss the likely source of the odours and that SEPA are pressing site to get it rectified as soon as possible.

No further action required following confirmation of the delivery.
